STONY BROOK

STATE UNIVERSITY OF NEW YORK

Department of Electrical and Computer Engineering

Directions to Stony Brook, Electrical and Computer Engineering (ECE)

Take Long Island Expressway (LIE) exit 62, to North 97 (Nicholls Rd) for 9 miles.

The university has 3 entrances off Nicholls Rd.: *South*, *Main* and *North*. The easiest way to get to the dept will be from **North entrance**. When you're on Nicholls Rd, going north, you'll first see South entrance then Main and finally North entrance. (north entrance is right before the end of Nicholls Rd). Make a **left** onto **North Entrance Drive** from Nicholls Rd. At the end of North Entrance Drive (only a few hundred yards), make a **right** onto **North Loop Rd**. Follow North Loop Rd and make a **left** onto **SAC Drive**. After the turn, stay on your left and make another left turn onto **Center Drive**. There is a big parking lot on your right shortly after. You can park your car there and put the parking permit on your window. Our building is at the end of the Parking lot. It is called Light Engineering Building. The ECE Dept is on the second floor.

For those arriving after 5pm and on weekends, there is no need for a parking permit.
